

**Amendments to the specification:**

On page 1, after the title of the invention, please insert the following:

**CROSS-REFERENCE**

The invention described and claimed hereinbelow is also described in PCT/EP 2004/052875, FILED ON November 8, 2004 and DE 10360246.1, filed December 20, 2003. This German Patent Application, whose subject matter is incorporated here by reference, provides the basis for a claim of priority of invention under 35 U.S.C. 119 (a)-(d).

On page 1, line 3, please amend the heading as follows:

Background of the Invention Information

On page 1, please amend the first paragraph as follows:

The present invention is directed to an insertion tool for a machine tool ~~according to the definition of the species in Claim 1.~~

On page 1, line 21, please amend the heading as follows:

~~Advantages~~ Summary of the Invention

On page 4, line 15, please amend the heading as follows:

Brief Description of the Drawings Drawing

On page 5, please amend the second paragraph as follows:

When angle grinder 2 is viewed not from the top, as in Figure 1, but from the bottom, a hub 16 of insertion tool 12 can be seen. This hub is shown in Figure 2. An abrasive body 18 – shown in Figure 1 – of insertion tool 12 is located around hub 16, abrasive body being fastened to hub 16 with the aid of fastening elements 20. Hub 16 of insertion tool 12, wherein the insertion tool is designed as a cutting disc, is shown in Figure 2 in a perspective, exploded view above a driving flange 22 of angle grinder 2. This driving flange 22 surrounds a centring collar 24, onto which hub 16 can be slid with a centring opening 26.
